Next Saturday the election for subscription to the Savannah Valley Railroad takes place. Every friend of the enterprise should be at the polls, and vote and work for the subscription. The destiny

of the Road rests upon the shoulders of the citizens in the townships called upon to subscribe for the completion of the Road. It would be foolishness to throw away the amount already expended upon the Road, when only a small sum is now asked to complete it. The amount of taxes each man will have to pay will not only be a good investment for himself, but also for his children. Therefore, you owe it to your children to vote the tax Let it not be said that our people are so parsimonious as to be unwilling to aid in romoting an enterprise that will develop and increase the wealth of the County.

Maria McCode, colored, residing near Pendleton, died quite suddenly on the 29th ult , and was buried next day. She was a very healthy, stout woman, and her sudden death caused some comment in the neighborhood, many believing that she had been poisoned. During the week after her death the suspicions increased, and last Friday Coroner Nance having been informed of the circum stances of the death, went up to Pendleton, and, after empaneling a jury, had the remains taken up and held an inquest over them. The stomach of the deceased was taken out and examined by physicians, who testified that there were evidences of poisoning, though on accoun of the decomposition it would take an analysis to decide positively about it. The inquest was adjourned until the 10th inst. The body was re-interred, but the stomach has been sealed up in a jar for further examination. It is believed that the deceased's husband caused her death. as he has left the neighborhood.

The two had been sitting for a time spart, each engaged with his own knot of immediate friends, and by and by the Doctor grose and walked across the room with the old-time limp in his gait. Mr. Orr immediately recognized him and asked him if he were not the Chaplain at the University of Virginia at such a time, naming the year. The Doctor replied that he was. 'I was there,' said Mr. Ofr, 'a student at the time, and I knew you by the peculiar limp of your step' said the Doctor, a little severely, though with a twinkle which told that he spoke jokingly, 'it seems that my limping made a deeper impression on you than my preaching.' Railroad Tax Notice.

Ms. Editos: The authorities of the Savannah Valley Railroad Company have, in view of the prospect of a short cotton crop and suggestions of friends of the Road, resolved that the payment of the tax to be voted by the townships on the 13th inst. may be divided into equal installments, one to be paid this year and the other next Fall, without penalty, with the privilege to those who desire it to pay all this Fall. By law the Directors have full control of the collection of the tax, and they have adopted this course, that the crop being short the tax will be light. W. W. HUMPHREYS, Pres.

Jno. R. Booker, of Mason, Ga, writes:
"In 1878 I was attacked by the most ravenous sort of cancerous sores, that ate great holes into my flesh and spread rapidly over my body. I received the very best medical attention; was dosed with misrcury and potash until I was so crippled with mercurial rheumatism that I could scarcely hobble about; my throat and mouth were badly dicerated; my hair began to fall out. So wrecked was my general health, that I became a physical ruin and my life was a burden. For a long time I was bed-ridden, and my suffering was so intense that I prayed for death as a relief. I exhausted the whole catalogue of patent medicines, in each case following the directions religiously. Each in turn seemed to aggravate the malady, and none of them benefited me in any way. When life was apparently hopeless I commenced taking S. S. S. To this Specific I owe my life. In ten days I commenced improving, and in a short time was perfectly well. My hair has grewn out thick; my health and strength have returned; the ulcers in my throat and mouth are entirely cured; my appetite has returned, and for the first time in years I enjoy my food. Every sore has disappeared from my body. I well as much as I ever did in my life, and am perfectly heaithy in every way: The very germs of the cancerous affliction are destroyed. Not only is the terrible malady that was preying on my life, and which every one pronounced incurable, entirely cured, but I am also relieved of the bad effects of the mercury and potash mixtures that I was fed on for years."

Beware of Potash and Mercury mixtures, gotten up to imitate our specific, they are dangerous.

WAGONS, WAGONS!

WE have just received a Car-load of the Celebrated TENNESSEE WAGONS, and having succeeded in getting a special low freight on same, we propose to cut prices accordingly.

We now have on hand twenty one-horse Wagons, with double bodies and spring seats; also thirty assorted \(\frac{2}{3}\) and two-horse Wagons, both Thimble Skeins and Iron Axles, and we will be sure to please you in price as well as quality.

One of our 1\(\frac{2}{3}\)-inch iron axle Tennessee Wagons, having a guaranteed capacity of 4.000 pounds, was used in hauling from the Depot here the new Vault for the National Bank of Anderson. One of the iron pieces hauled upon it weighed 7.600 pounds, and the skids upon which it rested are supposed to have weighed about 400 pounds, making in all 8.000 pounds or more held up by this wagon, which proves that they are even better than they are claimed to be. We publish the names of persons who are using these Wagons, and we refer you to them as to their quality. If you intend purchasing a Wagon let us know it at once, so that we can keep them ordered ahead, and enable us to meet all wants promptly:

THE DANIEL PRATT GIN, FEEDER and CONDENSER

MANUFACTURED at Prattville. Ala., has been sold for fifty-two years, during which time over 25,000 Gins have been turned out, and are in use in every Cotton growing State of the Union, Mexico, South America and the British East Indies. The Gins are more simple, less complicated and less liable to get out of order, stronger and more substantial than any Gin now offered; and being so well known to the Farmer and Public Ginner in this and the surrounding Counties, that we feel it unnecessary to give lengthy testimonicals and references.

We are prepared to fill all orders promptly, and as there is always a rush in the latter part of the season, we would suggest that you give us your order at once, to insure prompt delivery. Our prices are as low as a first-class Gin can be sold, and our terms are as favorable as any purchaser could desire. Every Giu, Feeder and Condenser is guaranteed to give full satisfaction before payment for same is required.

If you have an idea of buying a Gin this season, do not fail to call and see us. We will take great pleasure in giving all necessary information and references to parties who have bought from us. Thanking you for your patronage in the past, we respectfully solidit a continuance of the same.

August 7, 1884 THE NEW IMPROVED CCTTON BLOOM as now made by the Standard Machine-ry Co., of Mystic River, Conn., ranks first in the list of Gins. The lightest draft Gin made. Cleans the seed thoroughly, and makes a beautiful sample. With the new Cotton Box and Ratchet Breast the seed can be cleaned as the operator may desire. The Saws are fixed on shaft with Screw and Nut, so that a damaged Saw can be replaced at the Gin-house. Any part of the Gin can be duplicated at home. These Gins are of the best material and workmanship, and are the most durable Gins on the market. Over fifty wold by us in the last ten years, and they take the day wherever introduced. HAVE a large stock of SHOES and BOOTS—pegged Shoes, T. Miles & Bons and Bay State—which I am selling at

Sons and Bay State—which I am selling at low down prices. Ladies' Shoes from 70c. to \$3.50 per pair; Mens' Shoes from \$1.25 to \$5.00; pegged Shoes and T. Miles & Sons Mens' Shoes at cost. Bay State Shoes warranted. Give me a call if you want Shoes. Hats are still going. Come and get a Hat before they are all gone.
